SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

Cal OES COASTAL REGION

Industrial Facility Fire, Sonoma, Sonoma County

On 06/05/18 at 1333 hours, the Cal OES Coastal Region Duty Officer (CDO) advised the California State Warning Center (CSWC) that the Sonoma County Emergency Services Duty Officer provided information about evacuations due to a fire at an industrial facility with possible propane tank explosions in Sonoma, Sonoma County.

- There were no requests for state assistance and no unmet needs.
- Per the Cal OES Law Enforcement Branch Duty Officer (LDO) as of 06/05/18 at 1508 hours, the evacuation order was lifted.
- Per the Cal OES Fire and Rescue Branch Duty Officer (FDO) as of 06/05/18 at 1711 hours, the fire is contained.
 - The fire is expected to smolder for several hours as crews continue heavy mop up operations.
- Per California Utilities Emergency Association (CUEA) as of 06/05/18 at 1648 hours, 2 power lines are down but not impacting power transmission.
 - PG&E was on scene doing repairs.
- Sonoma County remains at Duty Officer Status and will continue to monitor.

Cal OES INLAND REGION

Train Derailment, Stockton, San Joaquin County, SPILL: 18-3634

On 06/05/18 at 0537 hours, CSWC received a report from the Burlington Northern Santa Fe Railway (BNSF) that 5 train cars derailed in an unknown position, due to unknown cause.

- The cars were carrying non-hazardous materials.
- There were no injuries reported and no release of hazardous materials.
- A BNSF mechanical foreman is on scene to investigate.
- Two mainlines, which are also passenger routes, have been blocked.
- There was no estimated time of reopening.
- CSWC made all notifications per SOP.

Per BNSF on 06/05/18 at 0730 hours:

- All 5 railcars were empty and derailed in the upright position.
- Heavy equipment was on scene and rerailment was in progress.
- Passengers on inbound trains were transferred to busses.

SITUATION SUMMARY

Cal OES SOUTHERN REGION

Virulent Newcastle Disease (vND) in Chickens, Los Angeles and San Bernardino Counties

The California Department of Food and Agriculture (CDFA) has detected virulent Newcastle Disease (vND) in chickens in Los Angeles and San Bernardino Counties.

- CDFA and the U.S. Department of Agriculture (USDA) have scaled up their response to this incident, as more cases have been detected.
- CDFA confirmed there are no commercial premises currently involved and there is no public health risk due to this virus.
- 1 AmeriCorps San Diego Spanish language interpreter responded to conduct surveillance (education/outreach), with a two week rotation.
- California Volunteers, local voluntary organizations active in disasters (VOAD), and faith-based organizations continue to assist the Agency Representative (AREP) in locating Spanish language interpreters.
- The USDA National Incident Management Team (IMT) arrived on 06/01/18 and teamed up with CDFA personnel at the CDFA Ontario District Office.
- The Cal OES AREP connected San Bernardino County Solid Waste Management Public Works with USDA contracting services to discuss an agreement for the use of San Bernardino county landfill for the disposal of backyard dead birds. SWMPW has prepared a draft board agenda item to allow them to accept the waste pending receipt of the USDAs Agreement.
- The Cal OES AREP is discussing with CalEPA the California requirements for use and transportation of certain hazardous materials.

Activations

- San Bernardino Operational Area (OA) Emergency Operations Center (EOC) is activated to Level 3 (lowest level) and will continue to monitor the incident.

Deployments

- 1 Cal OES Southern Region Senior Emergency Services Coordinator (Sr. ESC) deployed to the CDFA/USDA ICP as an AREP with an operational period of 0700-1900 hours.
- 1 Cal OES Logistics Section Chief (Log Chief) deployed to the CDFA/USDA ICP with an operational period of 0700-1900 hours.

Logistics

Per the Cal OES Southern Region AREP on 06/05/18 at 0855 hours:

- Cal OES Southern Region along with Cal OES Logistics continue to assist CDFA in identifying a facility to expand operations in the immediate area of the CDFA district office in Ontario, San Bernardino County.
 - The IC and IMT Logistics Chief are very interested in pursuing the Ontario International Airport.
 - The AREP will follow-up with the airport via the City emergency management.
 - The Logistics Inspection Team inspected a facility in Chino on 06/04/18 and it appears to be acceptable.
 - Preliminary negotiations are being discussed.
- See Fire Activity slide.

FIRE ACTIVITY

Cal OES Fire Preparedness Levels		
National	Northern California	Southern California
Preparedness Level 2	Preparedness Level 1	Preparedness Level 2
	Multi-Agency Coordination System MACS Mode: 1	Multi-Agency Coordination System MACS Mode: 1

Please note: The National and Regional Preparedness Levels are maintained by the National Multi-Agency Coordination (MAC) Group and are separate from Cal OES activation levels.

SOUTHERN REGION

Stone, Vegetation Fire, Los Angeles County

Location: Anthony Rd. at Hierba Rd., N of Agua Dulce

Jurisdiction: Local DPA, SRA, Contract County

Per the Cal OES Duty Officers and ICS-209 as of 06/05/18 at 1645 hours:

- 1,352 acres, 63% contained
- Structure threat mitigated

FMAG

- On 06/04/18 at 1740 hours, the California State Warning Center (CSWC) received a Fire Management Assistance Grant (FMAG) request from the incident.
 - Per Cal OES Fire and Rescue Branch on 06/05/18 at 1101 hours, the FMAG is no long under consideration.

MAJOR ROAD / HIGHWAY / BRIDGE CLOSURES

Major Road Closures		
Northern California	Central California	Southern California
No Lifeline Route Closures	No Lifeline Route Closures	Lifeline Route Closure

Lifeline Routes

Mono County:

- US 395 is closed 18.6 miles south of the Nevada State Line due to an overturned big rig. Estimated time of reopening is 06/05/18 at 2000 hours.
 - Per Mono Operational Area (OA) Emergency Management, traffic is being diverted to State Route 182.

Non-Lifeline Routes:

- There are no non-lifeline route closures.

Wildfire Closures:

- There are no wildfire closures.

Emergency Center Activations:

- There are no Emergency Center Activations.

WEATHER SYNOPSIS BY REGION

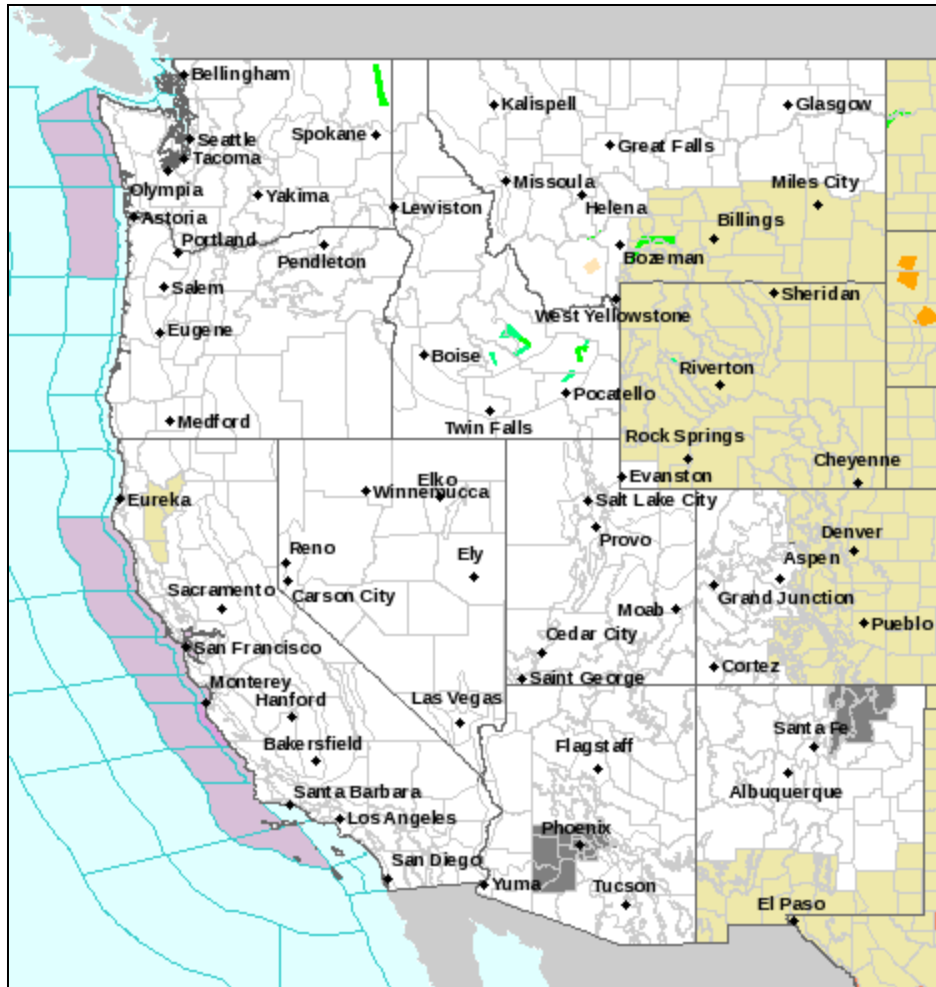

NORTHERN CALIFORNIA

A series of weak Pacific low pressure troughs will affect the region through the weekend. The first system will be dry, but the one arriving this weekend will bring a chance of rain or showers and isolated thunderstorms to our northern and eastern areas. Temperatures will remain rather moderate until this weekend and somewhat below normal. Warmer temperatures will return early next week. The coolest days are likely to be Saturday and Sunday with the warmest inland areas around 80 Saturday. Winds today will be much lighter than those Monday, although right along the coast and through the Delta there will be some gusty afternoon W to NW winds continuing. More widespread gusty S to W winds will return Wednesday and Thursday afternoons with gusts mostly 15-20 mph, but expect gusts of 20-30 mph in and south of the Delta. Monday may see dry, gusty, NW to NE downslope winds develop behind the trough when it moves off to our east.

SOUTHERN CALIFORNIA

A trough will bring cooler, onshore flow back to the area the next few days along with breezy conditions in a few locations. The marine layer has made a reappearance and night through morning low clouds can be expected over coastal and valley areas below 3,000 feet. However, above the marine layer, the air mass is very dry. Expect minimum relative humidity (RH) readings to be a bit higher over the next few days with most areas away from the marine layer seeing minimums in the 12-15% range for 6-7 hours each day. Gusty northwest winds of 20-25 mph will occur along the central coast and these winds may increase to 30 mph Wednesday afternoon in these same areas as well as the Antelope Valley and Kern County Mountains. Temperatures will cool to below normal readings through Thursday with valley high's only in the mid 80s. A weak ridge will bring warmer weather Friday, but look for temperatures to cool back down over the weekend. Gusty winds can be expected in and near the desert this coming weekend. Long range models indicate a strong ridge over the West may produce much warmer temperatures next week.
